2:50PM

## Preparing Students for the Future: Embracing Disruptive Technology in Accounting Education

**Markus Ahrens**, Professor of Accounting, St. Louis Community College-Meramec; with **Cathy Scott**, Associate Professor of Business Accounting, University of North Texas-Dallas

Are you having difficulty keeping up with the how quickly technology is changing? Do you feel that you already have too many topics to cover in your accounting course? This interactive session will discuss disruptive technologies and how quickly they're changing the accounting profession and the accounting classroom. Disruptive technologies discussed in the session will include Blockchain, AI, Advanced Robotics, 3-D Printing and Big Data. Participants will be provided the opportunity to determine which technology resources can best prepare their students for the future, facilitate critical thinking within their courses, and fit with their teaching style.

2:50PM-  
3:00PM

## Closing Comments

**Cathy Scott**, Associate Professor of Business Accounting, University of North Texas-Dallas
